CHRIST CHURCH BELL .- For some time past a change has been noticed in the tone of Christ Church bell-which was formerly clear, soft and silvery, and could be heard for several miles. It was believed that the spring attached to the clapper had gotten out of or-der and that when the bell was rung the clapper was forced against the rim and did not properly swing. An examination, however, has proved that there is a bad crack in the bell and at the meeting of the vestry of the church yesterday evening a committee was appointed to ascertain the cost and exhaving the bell recast. the same meeting the rector, Rev. Berryman Green, was requested to pre-sent to the South Farnham Church, in Essex county, the chancel furniture which was removed a few years since when the interior of Christ Church was restored to its original design and to the appearance it presented in co-

Low RATES .- The first move of the Southern Railway in the rate war begun by the Seaboard Air Line from Baltimore to Richmond, Old Point and Norfolk was reduced to \$2 for the straight trip and \$3 for the round trip, thus meeting the cut made by the Seaboard through the Old Bay Line. This reduction of rates on the York River Line was promptly met by a still lower cut by the Bay Line. Instead of \$2 for the straight trip and \$3 for the round trip to Richmond, the Bay Line announces a rate of \$1 for the straight trip either way.

SENT TO THE GRAND JURY .- R. L. Williams, colored, who was arrested for beating and robbing John Pratte, a scissois grinder, and robbing him of his watch and money, had a further hearing before Justice Lane, of the county, at the city jail this evening. The pris-oner plead not guilty. Wm. Kidd, col-ored, swore he saw Williams hand Pratte's watch to a colored man named Joe Kemp. Dave Green, colored, also identified the watch as belonging to Pratte, as did also Mr. Ed Downey. Pratte was put on the stand, and he testified that Williams saw him take a bag of money from his pocket at a house at Brickhaven, where he had purchased something to eat; and also that the prisoner followed him and overtook him in some bushes where he waylaid him with a stone which he held in his hand. The witness was knocked senseless, and when he revived he gave an alarm when Williams was chased and caught. Pratte identified him as his

assailant. The assault and robbery took place near Brickhaven, and Wil-liams was subsequently arrested by Justice Lane. Williams, when he took the stand, stoutly denied the charges, and said the watch had been given to him by a colored man named Will Stewart. The prisoner, after a patient and careful examination of the case was sent on to the grand jury.

PUT OFF A TRAIN.—Mr. Lee Lash was ejected from the electric cars near the north end of the Long Bridge in Washington about 10 o'clock last night. The alleged cause for the conductor's act was that the ticket tendered by Mr. Lash was "not good." The conductor who said "he knew his business" de-clined to accept the ticket although bystanders tried to convince him that he was in the wrong. Mr. Lash during the colloquy suppressed his temper though much aggravated and submitted by advice of friends to a peaceable ejectment. Mr. Lash's friends say that he will enter suit for damages.

THE A. L. I.—The weekly meeting of the A. L. I. was held last night, but the drill was dispensed with. JUNIOR ORDER AMERICAN MECHANics.—The Junior Order United Ameri-Mechanics of Virginia celebrated "American Day" in Norfolk yesterday, there being representatives there from several different sections of the State. There were two excursions from Richmond, which included quite a number of ladies. The headquarters of the order for the day was Armory Hall. An address of welcome was delivered there by Hon. W. R. Mayo, mayor of the city, which was responded to by State Councilor L. W. Guyer, of Richmond. The parade then formed and at the head of each division was a band of music. The chief marshal was Past National Councilor C. W. Tyler, of Richmond. After parading the princi-pal streets the visitors took trains to Ocean View, where the annual field exercises took place. The parade was a most creditable

one to the order, there being 438 men in line, besides the band and drum corps; in all 500 men. The judges awarded to Newport News, and decided that Grove Council, of Henrico county, stood second best.

KILLED BY LIGHTNING .- Yesterday evening lighting struck the Southside Academy at Chase City. Miss Virginia A. Haskins was lying on a bed, and her sister, Lucy, was at work at a sewing machine in the same room of the building. Miss Virginia was instantly killed, but her sister was unhurt. The hair of the unfortunate lady was seen to be in a blaze by Miss Lucy, and she threw a pillow over her to extinguish the flames, and found the stroke had been fatal. The ladies were the only persons in the building.
Miss Lucy, with great presence of mind,
rang the bell and cried aloud, and the neighbors ran to the building. The de-seased was about 19 years old, of lovely character, and had been engaged as one of the teachers for the next session. Singular, the cloud had passed over, and the sun was shining when the lighting struck the building. The Academy was considerably damaged. The blinds, window frames, and plastering was terribly torn to pieces.

MONETARY AND COMMERCIAL.

New York, July 20.—Speculation was active and excited throughout the morning session. The action of the banks in placing part of their gold at the disposal of the Treasury Department; higher cables and foreign buying and statements that a movement was on foot to throw obstacles in the way of gold exports all having a strengthening influence. Prices advanced sharply, the principle buying coming from the shorts. At the advance some of the small traders endeavored to realize profits, but when this became evident the big bears began selling again and the whole list fell back ½ to 2½ per cent. The market then rallied slightly, but was very feverish. There was very little doing in the way of commission business and at 11 o'clock speculation was irregular and in the main weak. Stocks was irregular and in the main weak. Stock improved rapidly after 11 o'clock and the bes prices of the day were made in a number of
